SENDERS PACKAGING AND DANGEROUS GOODS DECLARATION

I, the sender, declare that:

1. I have kept the battery inside the mobile phone where possible.
2. Any loose batteries have been wrapped in bubble wrap or similar and sealed before putting in the package so that each one is completely enclosed in inner packaging and will not come into contact with other items in the package.
3. All mobile phone accessories (charger etc.) have been separated from the handsets or batteries and packaged appropriately
4. The package contains dangerous goods (Lithium battery) and that the articles contained in the package have been packed in accordance with the current Australian Code for the Transport of Dangerous Goods by Road and Rail.
5. The package does not contain any other dangerous or prohibited goods (apart from those specified above), eg explosives, flammables, corrosives, aerosols, etc.
6. I have not included any damaged or leaking batteries.
7. This package weighs no more than 2kg.

Sender's Details:

Sender's Signature: _____

Name: _____

Address: _____

Telephone: _____

Suburb: _____

State: _____

Postcode: _____

AMTA ID: _____

* Some remote locations in Australia can only be reached by air. If you are based in such a location, Australia Post cannot guarantee that your package will reach its destination as lithium batteries are not accepted by air carriers in the mail. In such an instance, the package will be returned to sender.

MobileMuster is the official product stewardship program of the mobile phones industry and run as a not-for-profit program.
